

Heath Eric & Molly G

What Folks Are Saying...

"Heath Eric is a man of many distinctions: Within Americana/Folk Music his music stands as a defining genre, and is perhaps the greatest expression of the spirit of Western Kentucky... and as an expression of moral idealism, it advocates a standard of existence that has inspired audiences of widely varying circumstances to improve their lives. When the student is ready, the teacher appears. **Heath Eric is improving lives by teaching through his music.**"

Steve Wardrip

"You are never too old to dream...Heath & Molly - **you have restored my desire to dream.** 'The Journey' is still my fav! You guys harmonize so WELL together...can't WAIT to hear more!!!!"

Darla Wethington

"I just listen to your CD - I think it's awesome! My personal favorite... 'hearts and skin.' - it makes you feel something personal, as if the song was meant just for whoever is listening to it. **You are really sharing yourself with the rest of the world and I think that's what you've been given these gifts for. I think you've done what so many others dream about** - and I'm sure it will inspire everyone who hears it."

Jane Rhodes

"You are truly a Kentucky treasure!"

Marie Hendricks

"Ahhh, I liken this to putting on your favorite pair of jeans, your favorite pillow, the smell of freshly cut grass or the smell right before it rains. Those things just make you think **"I could stay right here in this moment forever"**. To say that I love this music is an understatement! What an inspiration!"

Tammy King

"Thanks for being an inspiration to not only musicians, but anyone who wants to follow their dreams. It's truly amazing to have someone like you in our area. Your talent and leadership will definitely take you far. I admire your ambition and drive to do what you love. **Thank you for being a great role model.**"
